

Combined Block Fee Agreement

- Our C-BFA has you covered
- Save time, money, and personnel resources
- Combined inspections through single visit

THE BEST OPEN REGISTRY

Streamlined inspection and audit process

The Liberian Registry offers shipowners and ship managers a combined block fee agreement (C-BFA), which covers verification and certification for compliance with the Maritime Labour Convention 2006 (MLC), International Safety Management (ISM), and International Ship and Port Facility Security (ISPS) audits.

The MLC, ISM, ISPS and the Annual Safety Inspection (ASI) requirements partly overlap, so reviews can be combined and conducted during a single ship visit by our specially trained auditors and inspectors. Liberia's harmonization initiative helps save time, money, and personnel resources.
