PRINCIPLES OF MINIMUM SAFE MANNING IMO Resolution 1047(27).

The following principles should be observed in determining the minimum safe manning of a ship:

A. The capability to:

- maintain safe navigational, port, engineering and radio watches in accordance with regulation VIII/2 of the 1978 STCW Convention, as amended, and also maintain general surveillance of the ship;
- moor and unmoor the ship safely;
- manage the safety functions of the ship when employed in a stationary or near-stationary mode at sea;
- perform operations, as appropriate, for the prevention of damage to the marine environment;
- maintain the safety arrangements and the cleanliness of all accessible spaces to minimize the risk of fire;
- provide for medical care on board ship;
- ensure safe carriage of cargo during transit;
- inspect and maintain, as appropriate, the structural integrity of the ship; and operate in accordance with the approved Ship's Security Plan; and

B. The ability to operate:

- all watertight closing arrangements and maintain them in effective condition, and also deploy a competent damage control party;
- all onboard fire-fighting and emergency equipment and life-saving appliances, carry out such maintenance of this equipment as is required to be done at sea, and muster and disembark all persons on board; and
- the main propulsion and auxiliary machinery including pollution prevention equipment and maintain them in a safe condition to enable the ship to overcome the foreseeable perils of the voyage.

C. The following onboard functions, when applicable, should also be taken into account:

- ongoing training requirements for all personnel, including the operation and use of fire-fighting and emergency equipment, life-saving appliances and watertight closing arrangements;
- specialized training requirements for particular types of ships and in instances where crew members are engaged in shipboard tasks that cross departmental boundaries;
- provision of proper food and drinking water;
- need to undertake emergency duties and responsibilities; and
- need to provide training opportunities for entrant seafarers to allow them to gain the training and experience needed.

Every Company applying for a MSMC with a manning different from the standard provided in Marine Notice [MAN-001](#), or [MAN-004](#) must provide written justification (via email) to support the revised MSMC and shall include the following set of documents:

- the **general arrangement plan**, with details of the navigational bridge, engine rooms and accommodations details;
- the **safety plan**;
- the **muster list**;
- the **navigation and engineering watch lists**,
- the **table showing the working /rest hours for the crew**
- a **Description of tasks conducted by other groups to support the crew, such as riding crews for maintenance and cargo teams to manage the loading and unloading of the ship.**

Evaluation by the Administration: The Administration will evaluate the submission of the company against relevant national and international regulatory requirements using the guidelines found in Marine Notice [MAN-001](#).
