11 August, 2014

Marine Advisory: 01/2014

Subject: Joint Concentrated Inspection Campaign on hours of rest

Dear Shipowner/Operator/Master;

Paris MoU and Tokyo MoU have announced a joint, three month Concentrated Inspection Campaign (CIC), commencing 1 September to 30 November 2014 (copy attached). The CIC will focus on hours of rest in accordance with the provisions of the STCW Convention, as amended. To ensure compliance with the requirement for rest periods in accordance with section A-VIII/1 of the STCW Code, the Port State inspectors are expected to;

1. Check records of seafarers’ daily hours of work, or daily hours of rest, check to see if the watch schedule is posted (this may now be incorporated into the table of shipboard working arrangements),
2. Check logbooks (including cargo and other operational records),
3. Check to see if the number of engineering officers is sufficient for the task, when the vessel is certified for Unattended Machinery Operation,
4. Check to see of the number of officers responsible for navigation is sufficient, if the vessel is on a two watch system, and
5. Interview watch keeping personnel and personnel with designated safety, security and pollution prevention duties.

The Black Sea MOU will also be conducting a similar campaign during this period.

The U.S. Coast Guard and other Port State Control regimes may conduct a similar inspection in any port at any time.

Attachments:

(1) Annex A: List common pitfalls with presenting the daily hours of rest.
(2) Annex B: Guidance to the Master
(3) Annex C: Guidance to the Company
(4) Paris MoU and Tokyo MoU Press Release 28th of July

For questions regarding this note please contact Safety@liscr.com.

* * * * *
ANNEX A

COMMON PITFALLS WITH PRESENTING HOURS OF REST, OR WORK.

RECORDS OF DAILY HOURS OF WORK, OR REST (STCW A.VIII/1):
- Records of daily hours of work or rest are not available, or are not maintained.
- Evidence that seafarers are not receiving the rest periods in accordance with the requirements of the STCW Code. *(Note: The period of 24 hours shall begin at the time a seafarer starts work immediately after having any period of rest, which does not include short breaks.)*
- There is no valid record of suspending the schedule of the hours of rest when deemed necessary for the immediate safety of the ship, persons on board or cargo, or for the purpose of giving assistance to other ships in distress at sea.
- Adequate compensatory rest period not provided if the normal rest period is disturbed by call-outs to work.
- Evidence of false records.

TABLE OF SHIPBOARD WATCH SCHEDULE (A-VIII/1-5):
- No watch schedules available.
- Watch schedule not posted.
- Watch schedule not in the working language or languages of the ship and in English.
- Watch schedules not accessible to crew.
- Watch schedules not in the standardized format established by the Administration or in the ILO/IMO format.
ANNEX B
Guidance to the Master

The Master shall:

1. Report any defect with the record of the hours of rest or work to the appropriate person in the Company and to the Administration by sending an email to MLC@liser.com.

2. Consult the appropriate person in the Company before making changes to the records.

<td></td>
<td></td>
</tr>
<tr>
<td>7. Will the watch keepers on the first and subsequent watch after departure have sufficient time to rest? STCW Reg I/4 or STCW Reg VIII/1-1-2. Note: if a watchkeeper has not had, or will not have the minimum rest periods required this may result in a PSC detention.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>8. Is there evidence that on–call seafarers receive adequate compensatory rest periods if disturbed by call outs to work? STCW A-VIII/1-6</td>
<td></td>
<td></td>
</tr>
<tr>
<td>9. Do the records indicate the bridge lookout is being maintained? STCW A-VIII/4-1-14</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
ANNEX C

Guidance to the Company:

It is recommended that the responsible person in the Company:

1. Review the Company’s current practices and procedures for maintaining records of hours of rest or work, and for posting of the watch schedule or table of shipboard working arrangements.

2. Ensure that there are provisions in the Company Safety Management System that provide guidance to the Master regarding what to do in case the hours of rest must be suspended for the immediate safety of the ship, persons on board, cargo or for the purpose of providing assistance to other ships or persons in distress at sea, which includes a reporting requirement to the Company and the Administration.

3. Notify the Administration by email to MLC@liscr.com if any irregularity is discovered regarding the records concerning hours of work and hours of rest.

4. Send an email to MLC@liscr.com requesting a review of a scanned copy of the record, if there are concerns regarding hours of rest or work on a Liberian flag vessel.

5. Send by email to safety@liscr.com a scanned copy of any Port State Inspection Report where a deficiency is recorded regarding the hours of work or rest along with scanned copies of any applicable document(s), for example: The records of hours of rest or work, and the “Table of Shipboard Working Arrangements”.

LAUNCH OF JOINT CONCENTRATED INSPECTION CAMPAIGN ON STCW HOURS OF REST

The Maritime Authorities of the Paris and the Tokyo Memoranda of Understanding (MoU) on Port State Control will launch a joint Concentrated Inspection Campaign (CIC) with the purpose to establish that watchkeeping personnel are meeting the requirements regarding hours of rest as per STCW 78 as amended (including the Manila amendments).

This inspection campaign will be held for three months, commencing from 1 September 2014 and ending on 30 November 2014.

The deck and engine room watchkeepers’ hours of rest will be verified in more detail for compliance with the mentioned scope of the CIC during a regular Port State Control inspection conducted under the regional ship selection criteria within the Paris and Tokyo MoU regions.

Port State Control Officers (PSCOs) will use a list of 10 selected items to establish that watchkeeping personnel are meeting the requirements regarding hours of rest, focusing attention on the Minimum Safe Manning Document (MSMD) and records of rest. In addition information will be gathered on the watch system, whether the MSMD requires an Engineer officer and whether the ship is designated UMS (Periodically Unattended Machinery Space). For this purpose, PSCOs will apply a questionnaire listing a number of items to be covered during the concentrated inspection campaign. The questionnaire has been annexed to this press release.

When deficiencies are found, actions by the port State may vary from recording a deficiency and instructing the master to rectify it within a certain period to detaining the ship until serious deficiencies have been rectified. In the case of detention, publication in the monthly detention lists of the Paris and Tokyo MoU web sites will take place.
It is expected that the Paris and Tokyo MoUs will carry out approximately 10,000 inspections during the CIC.

The results of the campaign will be analyzed and findings will be presented to the governing bodies of the MoUs for submission to the IMO.

</thead>
</table>
| Regional Port State Control was initiated in 1982 when fourteen European countries agreed to coordinate their port State inspection effort under a voluntary agreement known as the Paris Memorandum of Understanding on Port State Control (Paris MOU). Currently 27 countries are member of the Paris MOU. The European Commission, although not a signatory to the Paris MOU, is also a member of the Committee.  
The Paris MoU is supported by a central database THETIS hosted and operated by the European Maritime Safety Agency in Lisbon. Inspection results are available for search and daily updating by MoU Members. Inspection results can be consulted on the Paris MoU public website and are published on the Equasis public website.  
The Secretariat of the MoU is provided by the Netherlands Ministry of Infrastructure and the Environment and located in The Hague. | The Memorandum of Understanding on Port State Control in the Asia-Pacific Region, known as the Tokyo MOU, was signed among eighteen maritime Authorities in the region on 1 December 1993 and came into operation on 1 April 1994. Currently, the Memorandum has 19 full members, namely: Australia, Canada, Chile, China, Fiji, Hong Kong (China), Indonesia, Japan, Republic of Korea, Malaysia, the Marshall Islands, New Zealand, Papua New Guinea, the Philippines, the Russian Federation, Singapore, Thailand, Vanuatu and Vietnam.  
The Secretariat of the Memorandum is located in Tokyo, Japan. The PSC database system, the Asia-Pacific Computerized Information System (APCIS), was established. The APCIS center is located in Moscow, under the auspices of the Ministry of Transport of the Russian Federation.  
Port State Control is a check on visiting foreign ships to verify their compliance with international rules on safety, pollution prevention and seafarers living and working conditions. It is a means of enforcing compliance in cases where the owner and flag State have failed in their responsibility to implement or ensure compliance. The port State can require defects to be put right, and detain the ship for this purpose if necessary. It is therefore also a port State's defence against visiting substandard shipping. |

Any question answered with a "NO" MUST be accompanied by a relevant deficiency on the Report of Inspection. Deficiency codes and convention references are given for each question where appropriate.

Questions marked either * or ** answered with a "NO" may give clear grounds for a detention.

* If the actual crew number or composition is not brought in accordance with the minimum safe manning document or the flag State does not advise that the ship may sail, the ship may be considered for detention.

** If the PSCO determines that a watchkeeper due to take the first or relieving watch at the commencement of a voyage has not had, or will not have, the minimum rest periods required in STCW then the PSCO should consider detention of the vessel until such time as those rest periods have been taken.
PRESS RELEASE

CONCENTRATED INSPECTION CAMPAIGN (CIC)
ON STCW HOURS OF REST

The six member Authorities of the (Bulgaria, Georgia, Romania, Russian Federation, Turkey, Ukraine) of the Black Sea Memorandum of Understanding on Port State Control will start a concentrated inspection campaign on STCW Hours of Rest. The three-month campaign will start on September 1, 2014 and end on November 30, 2014 under the co-ordination of the General Directorate of Maritime and Inland Water Transport of the Republic of Turkey Ministry of Transport and Communication. The campaign shall be conducted simultaneously with the Paris MOU, Tokyo MOU and other MOUs.

During the campaign period, member Authorities of the BS MOU will inspect, within the resources available, as many ships as possible in conjunction with routine port State control inspections, deck and engine room watchkeepers' hours of rest under STCW 78 as amended. This CIC will be undertaken on every ship eligible for inspection during the period of the campaign.

The CIC is aimed to verify that watchkeeping personnel are meeting the requirements regarding hours of rest as required by STCW 78 as amended.

For the purpose of interregional harmonization of the action, the Black Sea MOU will use the model of relevant Questionnaire developed by the Paris & Tokyo MOUs with a checklist of 9 selected areas for deck and engine room watch keepers' hours of rest, some of which are related to record keeping and safe manning. Furthermore there are additional questions aimed to gather information about the existence of the two watch system, requirements for engineer officers and Unattended Machinery Space.

If deficiencies are found, actions by the Port State Control Officer may vary from recording a deficiency and instructing the master to rectify it within a certain period to detaining the ship until serious deficiencies have been rectified. All inspections will be inserted in the Black Sea Information System and will be published on-line and in the monthly detention list of the BS MOU.

The results of the campaign shall be analysed and findings will be presented to the Black Sea MOU Committee for submission to the IMO.
