LIBERIA MARITIME AUTHORITY

Marine Notice

POL-006
Rev. 07/12

TO: ALL SHIPOWNERS, OPERATORS, MASTERS AND OFFICERS OF MERCHANT SHIPS, AND AUTHORIZED CLASSIFICATION SOCIETIES

SUBJECT: Reports Alleging Inadequate MARPOL Port Reception Facilities

Reference: (a) MARPOL Consolidated Edition 2011
(b) MEPC/Circ.469/Rev.1 dated 13 July 2007

Supersedes: Marine Notice POL-006, dated 5/07

PURPOSE:

This Notice provides revised consolidated format for Master's to report alleged inadequacies of port reception facilities for oily wastes (MARPOL Annex I), noxious liquid substances (MARPOL Annex II), sewage (MARPOL Annex IV), garbage (MARPOL Annex V), and ozone-depleting substances and exhaust gas-cleaning system residues (MARPOL Annex VI) to the Flag Administration and, if possible, to the Authorities of the port State.

APPLICABILITY:

In accordance with MARPOL 73/78, as amended, the Government of each Party to the convention:

- .1 undertakes to ensure that reception facilities are adequate to meet the needs of the ships using them without causing undue delay to the ships; and
- .2 shall notify the International Maritime Organization (IMO), for transmission to The Parties concerned, of all cases where the facilities are alleged to be inadequate.

PROCEDURES:

Master's encountering difficulties in discharging waste to port reception facilities shall report the circumstances using the Revised Consolidated Format for Reporting Alleged Inadequacies of Port Reception Facilities, which is reproduced as Form RLM-111 and attached to this notice. Reports shall be sent to the Liberian flag Administration contact noted on Form RLM-111 and, if possible, to the Authorities of the port State concerned. The reporting form has separate sections applicable to port reception facilities for waste oil, noxious liquid substances, sewage, garbage and ozone-depleting substances and exhaust gas-cleaning system residues. The appropriate section(s) should be fully completed. The form is also available on the Registry's

1 of 2

website under “Online Library” and “Marine Documents” at www.lisscr.com. It can be saved and filled out electronically on a computer and sent as an e-mail attachment to the address provided on the form.

The Liberian flag Administration will use the information received in the report as the basis for developing the report(s) required to be forwarded to the IMO and for transmission to the Parties concerned.

RECEPTION FACILITY DATABASES

International Maritime Organization

IMO has developed an Internet-based port reception facility database (PRFD) as a module of the IMO Global Integrated Shipping Information System (GISIS). The PRFD went live to the public on 1 March 2006. The database may be accessed via <http://gisis.imo.org/Public/IAS/Public/Login.aspx?ReturnUrl=%2fPublic%2f> and includes data on available port reception facilities for the reception of MARPOL Annex I, II, IV, V and VI ship-generated waste based on information provided by Parties and Member States. Access to all the information is available to the public on a view-only basis. Ship owners and operators are encouraged to use the data as deemed appropriate and inform this Administration of any problems encountered with the information in the database.

REVISED CONSOLIDATED FORMAT FOR REPORTING ALLEGED INADEQUACIES OF PORT RECEPTION FACILITIES¹

The Master of a Liberian flag ship having encountered difficulties in discharging waste to reception facilities should forward the information below, together with any supporting documentation, to the Liberian flag Administration and, if possible, to the competent Authorities in the port State. The flag State shall notify the IMO and the port State of the occurrence. The port State should consider the report and respond appropriately informing IMO and the reporting flag State of the outcome of its investigation.

1 SHIP'S PARTICULARS

- 1.1 Name of ship: _____
1.2 Owner or operator: _____
1.3 Distinctive number or letters: _____
1.4 IMO Number²: _____
1.5 Gross tonnage: _____
1.6 Port of registry: _____
1.7 Flag State³: _____
1.8 Type of ship:
 Oil tanker Chemical tanker Bulk carrier
 Other cargo ship Passenger ship Other (specify) _____

2 PORT PARTICULARS

- 2.1 Country: _____
2.2 Name of port or area: _____
2.3 Location/terminal name: _____
(e.g. berth/terminal/jetty)
2.4 Name of company operating
the reception facility (if applicable): _____
2.5 Type of port operation:
 Unloading port Loading port Shipyard
 Other (specify) _____
2.6 Date of arrival: ___/___/___ (dd/mm/yyyy)
2.7 Date of occurrence: ___/___/___ (dd/mm/yyyy)
2.8 Date of departure: ___/___/___ (dd/mm/yyyy)

¹This format was approved by the fifty-third session of the Marine Environment Protection Committee in July 2005.

²In accordance with the IMO ship identification number scheme adopted by the Organization by Assembly resolution A.600(15).

³The name of the State whose flag the ship is entitled to fly.

3 INADEQUACY OF FACILITIES

3.1 Type and amount of waste for which the port reception facility was inadequate and nature of problems encountered

Type of waste	Amount for discharge (m ³)	Amount not accepted (m ³)	Problems encountered Indicate the problems encountered by using one or more of the following code letters, as appropriate. A No facility available B Undue delay C Use of facility technically not possible D Inconvenient location E Vessel had to shift berth involving delay/cost F Unreasonable charges for use of facilities G Other (please specify in paragraph 3.2)
MARPOL Annex I-related			
Type of oily waste:			
Oily bilge water			
Oily residues (sludge)			
Oily tank washings (slops)			
Dirty ballast water			
Scale and sludge from tank cleaning			
Other (please specify)			
MARPOL Annex II-related			
Type of NLS ⁴ residue/water mixture for discharge to facility from tank washings:			
Category X substance			
Category Y substance			
Category Z substance			
MARPOL Annex IV-related			
Sewage			
MARPOL Annex V-related			
Type of garbage:			
Plastic			
Floating dunnage, lining, or packing materials			
Ground paper products, rags, glass, metal, bottles, crockery, etc.			
Cargo residues, paper products, rags, glass, metal, bottles, crockery, etc.			
Food waste			
Incinerator, ash			
Other (please specify)			
MARPOL Annex VI-related			
Ozone-depleting substances and equipment containing such substances			
Exhaust gas-cleaning residues			

⁴ Indicate, in paragraph 3.2, the proper shipping name of the NLS involved and whether the substance is designated as 'solidifying' or 'high viscosity'.
